

SEPTEMBER TAX COLLECTIONS BEST IN BOROUGH'S HISTORY

Tax Collector Mathias Takes in \$69,969.45 For School and Borough

BIGGEST CHECK IS \$5,090

Pittsburg Plate Glass Company Pays In Large Sum—Tax Collector Mathias Will Collect Personal Taxes If Necessary by Law.

The best collections for any month in the history of the borough of Charleroi are reported by Tax Collector J. W. Mathias for September, totaling school and borough \$69,969.45. In school collections this year's record was better than last year's in the sum of \$3,120.93 and in borough it was \$2,110.15 better. Now Tax Collector Mathias is starting out to personally canvass those who have not paid their personal taxes and following instructions and a system adopted at North Charleroi last year will prosecute those who do not pay. This will mean added costs amounting to \$4 or \$5.

The 1915 school tax collected by Tax Collector Mathias and turned over to the treasurer during September was \$40,294.79. The borough tax money placed in the borough treasurer's hands amounted to \$27,747.53. Delinquent school taxes collected during the month totaled \$1,232.54 and delinquent borough taxes to \$694.59.

Many large checks were placed in the hands of Tax Collector Mathias during September got the various industries here occupy considerable valuable space. The biggest check of all was that of the Pittsburg Plate Glass company being for \$5,090.

Tax Collector Mathias emphasized the necessity of taxpayers looking up their back tax receipts for personal taxes. "These taxes are going to be collected and if necessary legal proceedings will be instituted," he said. "This will mean costs in addition to taxes."

NO INQUEST CONSIDERED TO BE NECESSARY IN MARINI'S DEATH

Coroner Heffran Views Body of Man Killed in Cave-in—Removed by Undertaker Crowley to Home.

No inquest is considered necessary in the death of Louis Marini, an Italian of Belle Vernon who was killed when a portion of a wall caved in on him at the rear of the Hussey-Binns Shovel company's plant Thursday morning. The body was taken Thursday morning to the undertaking rooms of M. T. Crowley on McKean avenue and later removed to the home of the man's family.

Coroner James T. Heffran was here Thursday evening to view the body at the Crowley mortuary. He inquired into the facts of the man's death and from his investigation learned that his demise was simply an accident and was not due in any sense to anyone's negligence.

FORMER CHARLEROI PLAYER AT FRONT

P. J. Charlesworth Describes Experiences in France in Letter to President John K. Tener—Wants to See National League Win Flag

In the person of P. J. Charlesworth a former Charleroi baseball player is somewhere in France fighting in the trenches as a private in the first battalion, first brigade first Canadian contingent. President John K. Tener of the National league lately received a letter from Mr. Charlesworth describing briefly some of his experience in France, and stating his interest in the National league race. The letter was forwarded to H. L. Swickey here by Mr. Tener. It reads:

"Mr. John Tener,
Harrisburg, Pa.
"Dear Sir—I expect you will be rather surprised to receive this letter, but happening to get hold of a New York paper and seeing the standing of the leagues, I just thought that I would drop you a few lines and remind you that there is a member of the old Charleroi team at the front and that we still

find time to play a little of the good old game between scraps and enjoy it almost as much as ever, although the shells are passing over head both from our own guns and the enemy. However they are mostly hunting for our batteries. We still have some very decent players here from the states and Canada. You will hardly remember me but I played with you in 1891 to '93 at times when Bill Eckles, Gouzzie, Hartman, Householder and yourself were on the team. How is old Pittsburg doing this year? Any chance for the flag? I must close as I am short of paper and am in the hospital just at present. I have no chance to get out to get any. We have had some pretty hard fighting here but have always held our own and probably a little more. I hope the old National League comes out on top this year.

Yours truly,
P. J. Charlesworth.

Word has been received from the W. Harry Brown headquarters in Pittsburg, that plans for the erection of 400 new ovens for the Alicia works near Brownsville had been drawn and were about to be put into execution. It has one of the large cranes that carry coal to the river where it is deposited into waiting barges and shipped down the river. The new opening at Alicia No. 2 has been cleaned and the main heading is now being extended to the boundary line and is in excellent condition for the development of the large coal acreage that is owned by this company.

November 1 is Selected as Good Time For Instituting Service on New Line

OFFICIALS MAKE INSPECTION

Col. J. M. Schoonmaker and General Superintendent G. B. Obey Visit At Fairmont—Chance for Small Industries Up This Valley.

Approval of passenger rates and schedules by public service boards of Pennsylvania and West Virginia is being anxiously anticipated by the Monongahela Railway so that they can establish passenger service between Brownsville and Fairmont, as well as between Pittsburg and Fairmont. November 1 is the date which the officials of the road have selected as a good time for instituting passenger service, but all depends upon the pleasure of the public service commissions.

This week Col. J. M. Schoonmaker vice president of the Pittsburg and Lake Erie railroad with General Superintendent G. B. Obey of the Monongahela lines went to Fairmont over the new line, inspecting the tracks. In Fairmont they met with city officials.

Rumors had been floated to the effect that the actual operation of passenger trains on the Monongahela line would be postponed until spring, since the company was unable to institute service before cold weather. Two or three bad roads slips have occurred, and the fear of more on a new road bed is said to have caused the rumors of delay now.

That there is a good reason for small industries to locate up this valley was advanced by Col. Schoonmaker. This is because of the availability of fuel without double cost.

NEWSPAPER INTEGRITY.

The federal law requiring news-
papers to publish a sworn statement
of circulation and ownership is in
every way a good one, in the opinion
of the Washington Observer, which
says:

"The government law is lax in that
it does not provide for following up
and investigating thoroughly the
statements issued by newspapers and
it should be amended in this respect
with a view to punishing every false
and misleading statement."

The Chicago Tribune says on the
subject:

"Undeniably the purposes of this
publicity law are important and high-
ly desirable. There is no enterprise
that ought to be more subject to
publicity than the agent of publicity."

"But it is also undesirable that the
law is not strictly enforced or if
because of its terms it may be evaded
it is worse than no law, because it
covers fraud or false appearance with
a mask of legal pretense."

"Fortunately for advertisers there
are other means of testing the circula-
tion claims of a newspaper than a statu-
tory efficiency of which has been
limited by official policy of fear of in-
curring newspaper enmity. The
private check of such a concern as
the Audit Bureau of Circulation is
not controlled by such considerations."

"Unhappily the defect of the law as
to the disclosure of ownership is not
to be corrected by any such means
and in its present form makes a
farce of the law's intent. The statu-
ment of mere legal ownership may
be and is, of course, in many cases
completely deceptive so far as the ac-
tual ownership and effective control
is concerned. For example, where
capital is borrowed and stock deliv-
ered as collateral the legal ownership
remains in the owner of the shares,
but the real control is potentially in
the undisclosed lender."

"The statute as it now exists, there-
fore, should be either amended or
strictly enforced so as to accom-
plish the important purposes it was
intended to serve or it should be re-
pealed as being a failure and stand-
ing agency of deceit."

From figures now at hand by the
government agricultural authorities
it is made clear that if all the wheat
crop of this year had been saved the
total for the whole country would
have reached fully one billion bush-
els. The season has been unusual in
that while the greater part of the
harvest has been grown the difficulties in
saving it likewise have been unre-
sented. As it is there will be an
immense amount for export and the
prospect is that there will be a demand
for it all.—Washington Observer.

Why not a style show for Charleroi,
this year, next? Other towns
and smaller cities are holding them
and making a success. Let the mer-
chants and business men here com-
bine in preparing for a show and
make it really something worth
while. It has been done in and
Charleroi can do it.

At a recent meeting, additions to
the local branch of the Monessen com-

in the direction of the United States.

PICKED UP IN PASSING

A lesson in elementary anatomy had
been in progress. But the teacher did
not flatter himself that he had made
any lasting contribution to the know-
ledge of his pupils.

"Now, can anybody tell me," said
he at last, "what part of the body is
the most hardy treated?"

Only one youth showed any signs of
intelligence but he was most enthu-
siastic.

"Well, Sammy, you seem to be the
only boy who has learned anything
Till the class what you know."

"The part of the body what has the
worst time is the eye."

"How is that, Sammy?"

"Because all day it is under the
lash, and every night it gets a good
hiding."

"I heard a cynic talking on the fu-
turity of self-sacrifice the other night,"
said a New York lawyer. "I didn't
agree with his conclusions, but his
theme recalled an incident in my
youth that was certainly a case in
point on his side."

"When I was a youngster the dog-
faced boy was in his prime. We lived
in the county seat of a county up
state. My only sister—always my
great pet—and I were intensely ex-
cited when we heard that the lad
with the canine countenance was to
come to our town."

"We had saved up all our pennies
and when the boy arrived we had 25.
We figured the admission would be 10
cents and we would have a nickel over
for candy—for what's a seeing a dog-
faced boy without candy to chew
while staring?"

"Well, the boy arrived and we
went down to the tent where he was
being displayed. To our horror the
admission was 25 cents. We puzzled
long, but the tragic conclusion was
always the same—only one of us could
go in. So with tender fingers I drew
forth the 25 pennies and in a voice
husky with emotion of disappointment,
I said: 'Here, Dot, go in. I don't
mind, and you can tell me about
him when you come out.'"

"My sister protested, but finally
went. In five minutes she was back.
I was all eagerness to hear every de-
tail of the famed face.

"How was he—how was he, Dot?
What did he look like? Is he really
really dog? Tell me quick."

"Dot gazed at me and her lip
quivered. 'Oh, Jack,' she said, 'when
I got in I was so scared I couldn't
look at him.'"—New York Tribune.

Daylight Saving in Canada.

Considerable attention is being
given throughout Canada to a so-called
daylight-saving scheme. The move-
ment in Halifax is in accord with an
effort all over the Dominion to have
the clock put back one hour on April
1 each year, continuing to some
arbitrary month in order to give more
daylight for work and pleasure. Meet-
ings are being held all over Canada
with a view to bringing the matter to
the attention of the federal parliament
at its next session. The Halifax com-
mittee is composed of representatives
of the city council, trades and labor
council and wholesale and retail mer-
chants.—Canadian Reports.

AMONG THE THEATRES

COYLE-CHARLEROI

Beginning with the presentation of "The Song of Hate" on Monday with Betty Nansen in the featuring role an excellent program was presented at the Coyle theatre this week. Tuesday Fannie Ward was presented in "The Marriage of Kitty. This was an interesting and amusing story of

an English nobleman who married a girl so that the provisions of an uncle's will were fulfilled. "Destiny" or "The Soul of a Woman," a highly dramatic story was shown Wednesday. Emily Stevens, the emotional actress appeared in the stellar role. For Thursday's program Marguerite Clark, the very popular star was presented in one of the most novel and unusual romances ever pictured, "Helene Of the North." Though this week's program was more than

strong next week's will be stronger. Further announcements will be made later.

MAJESTIC-CHARLEROI

An unusually attractive program was presented at the Majestic theatre during the past week. One of the leading attractions of the week was "The Commuters" which was shown Tuesday. However "The House of Scandal" which was featured on Wednesday was one of the most original

and entertaining motion pictures ever shown. Harold Lockwood and May Allison appeared in the most prominent roles. The story given was one of a young millionaire who worked for the uplift and the betterment of conditions of the working girls. For this he was censured and the object of much gossip. Throughout the picture many beautiful and picturesque scenes were shown. "Trilby" a story taken from the book by the same name was shown Thursday. The

Majestic orchestra furnished the music each day.

PALACE-CHARLEROI

Manager Barnhart is closing this week with a vaudeville program of such a high standard of attraction being Ford and Sims, with a comedy team of act that is a scream. Reiter and Weiland, billed as "The Girl and the Comedian" have a good entertaining act, and Hugh Blaney is appearing as a high class vocalist and is singing some of the best songs. Beginning next week Manager Barnhart will present nightly a program of vaudeville. This will mean that the program will be changed twice a week, with every act that appears being reviewed at the Harris. The first of next week the attractions will be the Three Harmonious Scamps, with music and dancing, the Nigger Trio, chemists of comedy and Major McLaughlin, the world's greatest gun manipulator. Surprises are promised when the week's vaudeville begins of which announcement will be made later.

STAR-CHARLEROI

Still in its opening week an excellent program of pictures was presented at the Star then this week. The Star gives a short program of four or five reels. These programs are made up of the best in comedy, and one and two reel dramatic pictures. Monday three pictures were presented, "Cash Parrish's Pal" a two reel picture of the west, "Wait and See" and "Mother Gray." Tuesday's program was headed by "Mystic Jewels" a two part drama, the other picture shown Tuesday was a comedy "Dirty Work in a Laundry," with the famous comedian Ford Sterling in the leading role. Wednesday Charles Chaplin was featured in a rip-roaring comedy. The Star is proving to be one of the leading amusement places and the short programs are appreciated.

ALVIN-PITTSBURG

"His Majesty Bunker Bean," a new comedy drama will be the attraction at the Alvin Theatre during the week beginning October 11. Taylor Holmes the young comedian who is being starred by Joseph Brooks will be seen as Bunker Bean. The play is described as a pleasing mixture of light comedy and serious drama with almost a suspicion of the tragic. The action revolves around a period in the life of Bunker Bean, a serious-minded young stenographer who gains unexpected self-reliance and strength through a belief that he is the reincarnation not only of Napoleon Bonapart, but also of Ramtah, a powerful Egyptian king of ancient times. The newly found confidence in himself transforms Bunker into an energetic business man so sure of himself that success follows him in business and, with the assistance of his sweetheart, in love. The four acts all have to do with Bunker during his state of transition. And there is the moral, "As a man thinketh . . ."

WOMEN WHO ARE ALWAYS TIRED

May Find Help in This Letter.

Swan Creek, Mich.—"I cannot speak too highly of your medicine. When

through neglect or overwork I get run down and my appetite is poor and I have that weak, languid, always tired feeling. I get a bottle of Lydia E. Pinkham's Vegetable Compound, and it builds me up, gives me strength, and restores me to perfect health again. It is truly a great blessing to women, and I cannot speak too highly of it. I take pleasure in recommending it to others."—Mrs. ANNIE CAMERON, R.F.D. No. 1, Swan Creek, Michigan

Another Sufferer Relieved.

Hebron, Mo.—"Before taking your remedies I was all run down, discouraged and had female weakness. I took Lydia E. Pinkham's Vegetable Compound and used the Sanative Wash, and find today that I am an entirely new woman, ready and willing to do my housework now, where before taking your medicine it was a dread. I try to impress upon the minds of all ailing women I meet the benefits they can derive from your medicines."—Mrs. CHARLES ROWE, Kennebago, Maine.

If you want special advice write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Pathetic. Another pathetic little feature of everyday life is the way a stout woman verging on middle age will read the directions for making the angles trim and shapely, to meet the demands of the short skirt vogue, and laboriously but confidently go through all the prescribed exercises.—Columbus (O.) Journal.

Spoiled His Thoughts.

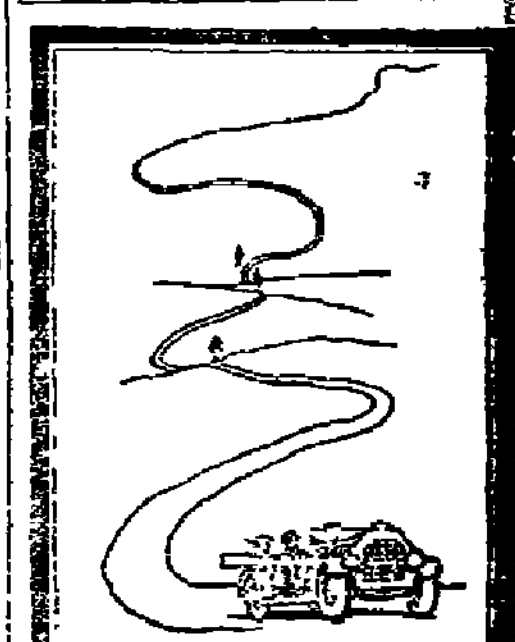

Little Billie was lying quietly, with eyes wide open, but apparently seeing nothing. After a while his mother asked, "Dreaming, Billie?" "No, dreaming," thinking," replied Billie patiently, "and when anybody speaks to me it cuts the think right in two, and I have to begin all over again."

TIME FOR THE HEAVY MEAL

Frenchman Asserts That It Is Early In the Morning, But Some Differ With Him Radically.

The undisturbed if not heroic digestion which arises at the first clear note of the wood thrush, and, after the due process of orderly kitchen events, sits eager and appetent before a slice of fried ham, a dish of fried potatoes, a stack of wheats, a bowl of oatmeal, a platter of fried eggs, etc., is worthy of note these days.

Our nerve organization requires time for preparation to meet the daily exigencies. It has to be warmed up, and, like a baseball pitcher, cannot go cold to its work. It suggests to the appetite that a bit of fruit, a soft-boiled egg and a cup of coffee will represent sufficiency and kindness to the interior economy.

Therefore when a French man of wisdom, with seeming logic, says that the heavy work of digestion ought to be thrown upon the rested digestive organs and that consequently the "heavy meal" of the day ought to be eaten early in the morning, we reply that his theory is plausible, but in error. Digestive organs may be rested in the morning, but they are not ready to work, except in the case of the now-rare and always heroic digestions before mentioned.

Moreover the French man of wisdom is socially wrong. One may welcome the cheering presence of one's fellow man at six o'clock in the morning, but no lover of the human race wants to see his brother at six o'clock in the morning. The inalienable right of humanity at six o'clock in the morning is a grinch, a silent, comforting grinch, which only asks of humanity that if it cannot keep out of sight, at least it keep its mouth shut.

Eating is as much social diversion as it is stoking. As stoking it would become abhorrent and men would flee to thickets with their meat if eating were not also social. A dinner, properly considered, is the gentle fourth or fifth act of the day. The climax has been reached. The stress has been endured, the complications mastered, and the mind comes restfully to the services of the body.

If we are to have the "heavy meal" of the day set at five or six o'clock in the morning, it will be served to a generation which sits up all night.—Chicago Tribune.

SONGBIRDS OF GREAT VALUE

Rarest Varieties Command Large Sums When They Are Offered for Sale to Fanciers.

The recent international bird show has provided some astonishing facts and figures regarding the value of songbirds. There are nearly one hundred classes of canaries. That they can be Norwich or Lancashire, Border or Yorkshire variegated, lizard, unflighted, clear, cross-bred, created, self or foul conveys very little to the average mind but leaves one marveling at the variety of chirping little creatures whose feathers are every conceivable shade of yellow.

One marvels also at the variety of birds that could be kept as pets. Finches, linnets, redpolls, tomtits, robins, wrens, stonechats, babbler and long-tailed, short-tailed, wag-tailed and crested varieties of all of them in every size, from the minute humming bird to the plump scarlet cockatoo, all vie for that popularity which up to the present has been the monopoly of the canary.

And these little birds are all quite cheap. A few dollars will buy most of them, but on the other hand \$2,500 would be asked for a gorgeous crimson bird of paradise, or \$5,000 for the canary-bullfinch "White Rose," the most extensive songbird in the world.

Forces to Be Destroyed.

The forces of nature we must endeavor to avoid. Working blindly as they do we can do nothing to overcome them. At most we can avoid their destructive influence and alleviate the suffering they give rise to. But the forces that are thrust out by ourselves, that spring from our own minds, must be controlled and overcome. They are primitive. They are brutal. They are animal forces. Against these we must direct our energies.

Unwilling to Impose on the Lord.

"What does yo' think, sah, 'bout de 'vangelist's notion o' holdin' sunrise pra'r meetin's?" "I calls it plumb foolish, sah!" replied square-headed old Brother Clank. "Chkaze why: De Lawd ain't gwine to tumble out o' bed dat early in de mawnin' to listen to a bunch o' niggers dat's got all day to do der prayin' in!"—Kansas City Star.

Why Editors Age Prematurely.

"Will you please give me," an East side woman writes earnestly to the Star, "a little information through your columns of 'Answers' I am making a shoe polish and want to know what ingredients to use to produce the shine. It is all satisfactory except that it does not give the desired polish."—Kansas City Star.

A Philosopher's Nightcap.

Many years ago I was in a northern country house in which Herbert Spencer was staying. At that time he suffered from sleeplessness, and one night on going to bed he said to me: "I am about to drink some hot brandy and water in order to restore the periodicity of my semiferrous functions."—London Spectator.
